## A secret of the stage every woman should know

Why you can buy it at the price of other soap

Because Palmolive is so popular that we make it in enormous volume. The Palmolive factories work day and night to supply the demand. The costly ingredients are bought in vast quantities.

The result is a moderate price which puts Palmolive within reach of all. Yet wealth can command nothing better.

Palmolive is sold by all dealers everywhere. It is supplied in guest room size by popular hotels the country over

PALMOLIV

For years women of the stage have belied the theory that cosmetics injure the complexion They use rouge and powder constantly, yet their skins are usually good. They look younger than other women. Actresses seem never to grow old.

The secret is simple - stage women know that cosmetics should not he left on. They keep their complexions so scrupulously clean that rouse and powder can't harm them.

### How you can wash for beauty

By using your own two hends and a cake of Palmolive. Work up a thick, creamy lather and massage it thoroughly into the skin. Be sure every tiny pore and minute aland is cleansed from clos-Aing accumulations

Then rinse thoroughly-with your hands-until every trace of lather disappears. Apply plenty of Palmolive Cold Cream.

Do this every day and you needn't worry about a little rouge and powder. Your skin will be smooth and fine textured. Blackheads, blotches and pimples will never bother you.

### A mild, gentle cleanser

Palmolive is the safe soap - the mild, gentle cleanser because it is made from Palm and Olive oils - the same precious oils Cleopatra used in the days of ancient Egypt.

These natural cleansers were a historic toilet luxury, adorning the sumptuous baths of classic days. Now their scientific combination in Palmolive achieves the greatest luxury of modern times.
